MR. AND MRS. REGINALD BOTTOMS
... exchange vows in India

Miss Sylvia Sawchuk Of Hylo Wed On Mission Field In India

By George Sharpe

For you in Alberta it was 11 o'clock at night when Miss Sylvia Sawchuk was married to Mr. Reginald Francis Bottoms. To be more accurate it was somewhat after 11 o'clock, for tradition persisted and the bride was a little late; anxious moments for any bridegroom and when the scene of the wedding is India at the beginning of the hot season, perhaps a little more anxious than usual.

For those of us who were in India, the date was a day later, April 8th, and the time 11 o'clock in the morning, and a prettier wedding would have been hard to find.

Sylvia, daughter of Mr. and Mrs. Theodore Sawchuk of Hylo, Alta., is the last child of the family to be married, and her groom Reginald, was the eldest son of F. L. and Mrs. F. Bottoms of Barnsley, England.

The ceremony took place at Christ Church, Muzaffarpur, Bihar, India, and was performed by the Rev. G. J. Block who is the resident minister and a missionary of the Regions Beyond Missionary Union.

For her wedding the bride wore a full length gown made of Canadian lace and Indian satin, together with a finger-tip veil held in place by a lace headpiece. She carried a bouquet of red roses.

In attendance were a bridesmaid and two flower girls. The bridesmaid, Miss Vera Mikkelsen of Irma, Alberta, wore a pink, full length gown with a net overskirt, and carried a bouquet of spring flowers. Of the two flower girls, one was Gulabi Dyal, from the RBMU orphanage at Motihari, and the other was Ruth Barclay of

Australia, whose mother and father are missionaries in Nepal. Both of the flower girls wore identical dresses in yellow and blue respectively, and like the bridesmaid, had net overskirts. The groom and best man wore charcoal grey suits with carnation buttonholes.

The best man, Mr. George Sharpe of Nottingham, England, studied with Mr. Bottoms for some time prior to sailing for India.

During the service the sermon was preached by the Rev. Roy Morgan, missionary serving with the Baptist Missionary Society in Delhi. The bride was given away by Mr. J. B. Leech of England. Mrs. G. J. Block acted in place of Sylvia's mother, and chose for the wedding a nylon floral frock with matching beige accessories.

The ushers were Mr. Howard Barclay and Mr. George Fox. Whilst the bridal party were signing the register in the vestry, Mr. Fox sang the solo "Together". The organist, a friend of the bride, played introductory music before the service.

The reception was held in the parsonage, residence of the Rev. and Mrs. Block, and guests were present from England, Scotland,

Would Extract, Pipe Crude Oil To City From Tar Sands

Plans to pipe crude oil from the Athabasca tar sands near Fort McMurray after extracting the "black gold" by the flotation method, were outlined before the Alberta Oil and Gas Conservation Board.

Great Canadian Oil Sands Ltd. told the board it is prepared to invest \$110,000,000 in the project and hopes to take 11,500,000 barrels of crude oil a year from the sands.

Thomas P. Clarke, the company's managing director, said engineering studies had convinced him the company could produce crude oil at Edmonton for a price competitive with crude from the Leduc oil fields.

Great Canadian's application was to be followed today by representations from two other interests who are intervening against the company.

Operations at the Great Canadian site near Fort McMurray on the Athabasca River would consist of mining the sands from open pits, transporting the material to a nearby extraction plant and then piping the crude oil to Edmonton.

MIXTURE FLOODED

In the flotation method oil sands are mixed with water to break down lumps; the mixture is flooded with water at 185 degrees Fahrenheit, separating the oil from the sands; the oil-water mixture is mixed with air to produce a froth that floats to the top of a tank as the sands sink to the bottom.

The air and water are removed from the oil by other processes and the resultant crude is thin enough to be shipped by pipeline.

Involved with Great Canadian in the project are three other companies: M. W. Kellogg Company Limited, who will build the \$56,000,000 plant and oil extraction system; Mannix Company Limited of Calgary, who will build a \$24,655,000 pipeline, road and bridge

into the plant site, and Link Belt Limited of Canada, who will build the conveyor belt and mining systems for digging the oil sands.

Mr. Clarke said the Sun Oil Company and Canadian Oil Companies Limited have agreed to market the crude.

GOVERNMENT SCHEME

The method is essentially one developed by the provincial government in an experimental station set up at the sands in 1944.

About 800 people would be employed in the initial stages of the project. Oil royalties paid to the Alberta government would be about \$1,100,000 a year.

Companies intervening in the application are Richfield Oil Corporation, Cities Service Petroleum, Royalite Oil and Imperial Oil, all operating jointly, and Can-Amara Oil Sands Development Limited.

Children Consume 110 Lbs. Hot Dogs At Track Meet

At the recent track meet held in Lac la Biche the Students' Union, with Mrs. J. Hayduk superintending, were in charge of the booth.

The various items were sold reasonably to the more than 1,000 children on the grounds. Apparently no child needed to go home hungry for some 60 lbs. of hamburgers were consumed along with 110 lbs. of hot dogs, 100 lbs. watermelon, 35 gals. ice cream, 90 cases of soft drinks and 60 doz. corn on the cob.

The Students' Union had a small profit to show for their day's work.

Essay Award Won By Laurier Amiot

EGG LAKE — Congratulations are being received by Laurier Amiot, second son of Mr. and Mrs. Bernard Amiot, Grade 10 student of Plamondon school who won the \$25 award donated by the Knights of Columbus for the best essay on vocations for Grade 9 and 10 of the province of Alberta.

Victor, Mr. and Mrs. Amiot's eldest son, Grade 12 student at the same school, graduated this year. His parents attended the banquet and graduating ceremony at Plamondon recently.

Farmers' Day Held In Plamondon Area

Farmers and their families celebrated Farmers' Day in various ways in this community.

Many families went to the beaches and others went on fishing parties.

Bayview had its share of visitors as several opened their summer homes.

A Farmers' Day dance was held in the community hall.

Fred Podealuk, 80, Feted On Birthday

LAC LA BICHE — Fred Podealuk was guest of honor at a family dinner to celebrate his 80th birthday, at the home of his daughter and son-in-law, Mr. and Mrs. Jake Hayduk recently. Present for the happy occasion were his two sons Mirsil of Hairy Hill and Dmetro of Two Hills and their families, also a daughter and son-in-law, Mr. and Mrs. W. Kindrachuk of Morecambe and granddaughter, Valerie Podealuk, Lac la Biche.

Later in the evening many friends and neighbors from town dropped in to wish Mr. Podealuk many happy returns of the day.

Hylo

Mrs. E. Keehn went as a delegate from the Hylo HSA to the convention at Lethbridge and the primary grades enjoyed a week-long holiday.

Leo Kaduik was visiting his parents, Mr. and Mrs. F. Kaduik last weekend.

Larry McEachern was a visitor recently at his parents' home.

Miss Grace Grandish Paul Poholski and Charles Keehn were all home last weekend.

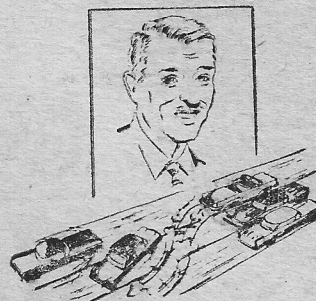

G. McEachern accompanied A. Kuwica to Edmonton on business. Mike Zalewsky made a business trip to Edmonton on Thursday.

Wales, Australia, Canada and India.

The toast to the bride was proposed by Mr. George Fox. Telegrams were received from England, Scotland, Wales, Australia, Canada and India.

For her honeymoon trip to Naini Tal in the foothills of the Himalayas, the bride wore a printed, olive green dress with matching hat and corsage of small spring flowers. After spending two months in Mussoorie, Uttar Pradesh, Mr. and Mrs. Bottoms anticipate making their first home in Gaya, South Bihar.

Chiropractic Relieves Migraine Headaches

By DR. K. W. TENOVE,
Chiropractor

Migraine, or bilious sick headache, is a common disease and the cause of much suffering and disability.

There is hardly any other disease, except perhaps seasickness, that can make a man so utterly miserable without killing him.

Commonly, the ache is on one side of the head, hence the corruption of Latin hemicrania, which means, "half the head."

Following the headache or closely associated with it, is usually a loss of desire for food, nausea, perhaps vomiting and often great misery and prostration.

In a severe attack, the "Storm" that has arisen either in the ganglions and nerves supplying the

blood vessels of the neck and brain or in the brain itself, soon spreads along the big nerves that run through the neck and down into the abdomen.

There the stimulus causes a surge of the bowel and with this comes nausea and vomiting.

Experience has proved that the best way to correct migraine headaches is to deal directly with the ganglions and nerves and this is

THE Homemaker

By BERTHA
M. McCUTCHEON

Well, Mother has had her day and now it is father's turn. Most of the time one's position in the family is taken for granted, we wonder if we are appreciated, and I'm sure Dad frequently wonders whether some members of the family see him as anything other than an available source of money and the car keys. So maybe having a day set aside to

B. McCutcheon focus attention on dear old Dad isn't such a bad idea.

If father likes stew I think he might like a brown chicken stew. It's very good according to the Poultry Products Institute. It's like a regular stew only the chicken pieces are browned first and instead of being light colored the gravy is golden brown. The flavor of course is different too.

Coat the pieces of chicken in flour seasoned with salt, pepper and a generous amount of paprika. Brown the pieces on all sides in about a quarter inch of hot fat. Have well browned but not scorched. Drain chicken and place in

kettle, half covered with water, and add a carrot cut in two or three pieces, a small sliced onion, celery leaves, a piece of bay leaf and any other herbs you like in a stew. Cover and bring to the boiling point and then reduce the heat and simmer until fork tender.

Chicken will require one to one and a half hours and fowl will take two and a half to three hours. Twenty minutes before chicken is cooked remove bay leaf, add quartered potatoes and carrots and small onions. Cook twenty minutes then remove chicken and vegetables and thicken gravy to desired degree with flour mixed to a smooth paste with a little water. Return chicken and vegetables to the pot, bring to boiling point and drop dumpling dough (made from any good recipe or prepared biscuit mix) onto vegetables and chicken, not into gravy. Cover kettle and cook fifteen minutes

without lifting lid. If dumplings are allowed to sink into gravy they will not be as light and fluffy as if placed on meat and vegetables and allowed to steam rather than boil.

The Poultry Products Institute has just printed a new recipe booklet called "Cooking Canada's Chicken". This new booklet contains the answers to most questions about cooking chicken—all the various ways to prepare fried, roasted, broiled or stewed poultry plus many new recipes and even adaptations of popular foreign recipes.

To obtain a copy of this booklet just send your name and address to Poultry Products Institute of Canada, Box 21, Station K, Toronto 12, Ontario.

A writer usually gets his compliments when a caller asks him to write something, free, of course.

County of Athabasca No. 12

NOTICE TO PARENTS OF SCHOOL BEGINNERS

Under Section 177 of The School Act, the County School Committee requires that entry to Grade I shall be confined to the commencement of the school year and limited to pupils who will have attained the full age of six (6) years on or before October 31st.

Our schools can offer only the regular first grade work for beginners and only the adequately mature children should be enrolled. An advantage is gained in the long run by a child being over age rather than under age on entering school.

In order to facilitate organizational planning for the 1960-61 school term, parents are asked to register with the principal of the school concerned. Failure to do so before June 15th, 1960 may deprive your child of admittance to school in September, 1960.

WINDROWER**

Windrows that are made with the new John Deere 14-foot Self-Propelled Windrower lie high and lightly on the stubble with heads exposed to the sun. Heads are well distributed over the entire width of the windrow. As a result, air can circulate under and through the crop. The sun cures the heads

faster. And, the wide, loose windrows have less tendency to hold moisture after a rain or heavy dew. This reduces the chance of spoilage and also speeds curing.

You windrow up to 75 acres per day with the practical, new John Deere Self-Propelled Windrower. Come in and see it soon.

No Change In Age For New Beginners

Property Management Committee Studies School Repairs Survey

BOYLE—The school committee meeting was held June 7 and 8 in order that the secretary and one member of the committee, George Weldon, could attend the short course in Banff. Even so there was considerable business and the final day of the session lasted until 10:00 p.m.

In the business from the minutes it was reported that the Department of Indian Affairs had agreed to a pro rata cost sharing of capital costs on the children attending Calling Lake school.

After calling for tenders it was decided to erect the addition to the Calling Lake school by day labor, as it was felt considerable saving could be effected in that manner.

Accounts were inspected and approved for presentation to the county council.

Correspondence was read from the department of education in regard to Farmers' Day. Some representation had been made to that body that the holiday be done away with, and all school committees and divisions are being circularized for opinion on the matter. The committee felt the holiday was a good idea and should be retained.

A petition was received in regard to the Spurfield road. This is a stretch four miles long from No. 2 highway to Spurfield. A 54-passenger bus travels this road, which so far has been maintained by a lumber company. The lumber from the mill goes out by rail, so the company feels that some assistance in the matter should be given by the provincial government.

Disposal was authorized of the vacated school site at Otter Creek.

Three applications for bursaries were received. One was approved and the other two were held over till later in the summer.

Some time ago the Richmond Park Home and School filed plans with the office in regard to beautification of the school grounds. They wanted the grounds fenced to

keep cattle off. The committee will supply posts and wire and the Home and School will do the work.

A recommendation was made by the commercial teacher that 10 new typewriters be purchased for the coming term.

Resignations were accepted with regret from Miss O'Dwyer, Miss Roberta Edwards and L. S. Richards. Leave of absence was granted William Hula to attend university. Mrs. Brubaker applied for leave of absence. R. A. Hudspeth was granted a bursary to attend summer school. He will be returning to the staff this fall.

S. Pidzarko of Spruce Park district met with the committee in regard to bus service for his children. The matter was referred to the committee which is studying the 1960-61 bus requirements.

Reports were made by the salary negotiating committee and by the disciplinary committee. The building supervisor drew up a list of needed repairs and renovations in all the schools some time for the property management committee. A detailed survey of the repairs to all the school plants was presented at the meeting. Following a tour of each of the schools, the committee had divided the work into a four-year program with estimated costs. The detailed report was dealt with item by item.

M. G. Gault, superintendent, in his report first dealt with the Teachers' Institute which was held in Athabasca on May 13. It was deemed highly successful. The school beginners' age was discussed. The policy was reviewed and it was felt that no change should be made and the beginning age

stands at six on October 31. Youngsters having their sixth birthday after that date will have to wait till the next term.

Approval was given to a beginners' induction program. Beginners for the September term will have a short course in the last two weeks in June to help them become adjusted to school life.

Arrangements were concluded for enlarging the Rochester school site. After these were completed, a delegation, J. LeGrand and Walter Gerlach of Rochester approached the committee and wanted to do some work in regard to enhancing the grounds. They were given permission to install back stops.

Tenders were opened in regard to school supplies for re-sale and caretakers' supplies. Tender was granted to Smith, Davidson and Lechky, whose bid was slightly over \$300 less than the nearest bidder.

The village of Boyle asked to trade property belonging to the village for school property adjacent to the curling rink in order to develop it into a park site.

Some discussion ensued in re-

gard to a request for additional caretaking help during the summer. Caretakers are to submit a job analysis of work to be done during the summer holidays.

A directive was issued that the county office would be closed on Farmers' Day, June 10.

A lengthy discussion, consuming hours, was spent on the organization of the schools for the next year.

A Big Step Towards Lower Harvesting Costs

Save time, save grain and slash all your harvesting costs—so easy with a new Oliver swather, either the low-cost pull-type or the fast, independent self-propelled model. For medium size operations, you can't beat the PTO-operated pull-type in a choice of sizes from 12 to 16 feet. Or if your operations are big, choose the new self-propelled with 10-, 12-, 14- and 16-foot header plus an optional wide-boom field sprayer attachment.

This year farm better and save more with an Oliver swather.

Mr. & Mrs. Elmer Meyer Honored On Fiftieth Wedding Anniversary

CASLAN — Mr. and Mrs. Elmer Meyer celebrated their 50th wedding anniversary on June 5 at their home in the Caslan district when their family and many friends gathered to honor the couple.

Emma Jones and Elmer Meyer were married at Vegreville on June 1, 1910. They lived there on the farm for 29 years till they moved to Caslan 21 years ago where they still reside.

Mr. and Mrs. Meyer have three sons and four daughters, Walter and Glen of Caslan; Albert of Edmonton; Mrs. Edith Henson, Caslan; Miss Iva Meyer, Edmonton; Mrs. Grace Bury, Westview, B.C., and Miss Edna Meyer, Caslan. They were all present for the oc-

casian. The couple also have 20 grandchildren and seven great-grandchildren, most of whom were present.

The family presented the couple with a chrome suite which consisted of a ranch-style table, two servers and chairs. Friends from the Vegreville district presented them with a gold tea set. They were also the recipients of numerous other gifts. They were showered with anniversary cards from many points in Canada, USA and New Zealand.

After dinner the couple cut a decorated three-tiered wedding cake made by their daughter, Miss Edna Meyer. During the afternoon family pictures were taken.

4-H Groups, Leaders At Grassland Rally

GRASSLAND — A 4-H Rally was held June 4 in the Grassland School with 4-H groups from Colinton, Wandering River, Amber Valley and Grassland present.

The program began with the introduction of members and leaders of every club. Also on the program were demonstrations, secretaries' reports, songs, speeches and a square dance. A lunch was served at noon by women of this district.

The program was concluded with "God Save the Queen". Lunch was again served and the girls helped clean up.

Guests included Miss P. Mewka, assistant superintendent of 4-H Clubs in Alberta, Ed Ness, Alberta Wheat Pool representative, and Mrs. Bertha McCutcheon, district home economist.

Leaders, guests and members enjoyed the opportunity to meet each other and become acquainted.

"GOOD FOR YOU, JULIE!"

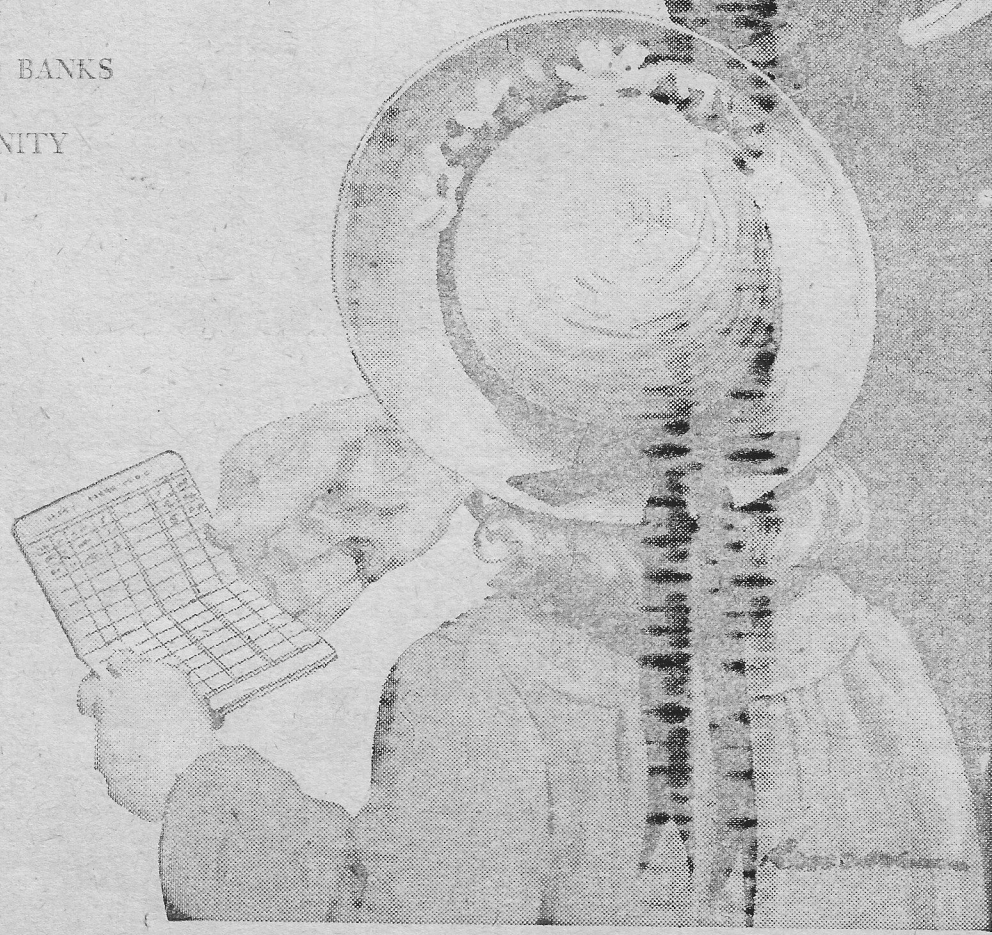

A bank manager is interested in *all* his customers.

No depositor is too young, no account too small, no financial problem too minor to receive his attention and consideration.

He likes dealing with people and is trained to help them in every way he can. He's a good man to talk things over with—not just because he knows a lot about banking, but because he can be counted on to apply that knowledge and experience to the needs of all his customers.

To him, banking is the opportunity to work with all sorts of people and, through bank services, to help with *your* problems, *your* hopes and plans.

RAKE FASTER...SAVE LEAVES

with a Low-Cost

JOHN DEERE

**350 PTO RAKE
3-POINT OR
SEMI-INTEGRAL**

The 350 PTO Rake gives leaf-saving performance—eats up acres, raking a full 7-foot swath at speeds up to 6-1/2 mph in leafy crops... and faster in crops where leaves are no problem. Low in initial cost, the 350 is dependable in the field, too, holding upkeep costs to a minimum.

The 350's right-angle reel moves crops directly to the left... moves them *only half as far* as conventional rakes, thus saving leaves. You'll save leaves, too, with the

350's 4-bar reel. Less contact with reel bars reduces shattering; teeth are spaced closer together to rake clean. Crops are lifted gently onto the stubble with the 350's special curved teeth, forming loose, fluffy windrows that cure faster.

The 350 is available in either standard 3-point-hitch or semi-integral design. If you prefer a 5-bar rake, a fifth reel bar is available as an attachment. Stop in soon, and choose the style that fits your needs.

Pet Lamb At Arndt Acres Is Special Treat

GUNN — Edmonton picnickers with children will enjoy any day out at Arndt Acres; especially when tiny children find out that a pet lamb roams about the beach and camp site.

Herb and Kaye Arndt raised the pet on a bottle but are now finding the lamb to be quite a nuisance. Most of the lamb's time is spent in play and the continuous search for a warm bottle of milk.

The pet fits in with the camp area as swings, teeters, tables and stoves are provided. The Arndts have 24 boats, a safe beach and a concession. Herb reports that pike and pickerel are now being taken and that a 35½ inch jackfish weighing 11 pounds was struck by a power boat recently.

The beach is 40 miles northwest of Edmonton on Highway 43; a good gravel road ½ mile long leads to the beach.
